

BIODENDRIMER 2020

7th International Symposium
on Biomedical Applications of Dendrimers

INVITATION

This conference series will promote the use of dendrimers and dendritic structures in medical and biological applications. Biodendrimer 2020 likes to discuss and to highlight the potential of differently composed and assembled dendritic structures as well as to compare their potential with other polymeric architectures for their use as carrier, polymeric therapeutics and theranostics. Within this conference series Biodendrimer 2020 honestly invites external experts for their contributions to new insights and other aspects for the successful development of carriers and drugs in (pre)clinic trials.

INVITED SPEAKERS

Prof. R. Haag, FU Berlin

Prof. M. Malkoch, The Royal Institute of Technology, Stockholm

Prof. R. Roy, Université du Québec à Montréal

Prof. L. Peng, CNRS, Marseille

Prof. X. Shi, Donghua University, Shanghai
and other speakers
